# Bajaj Products

<https://www.bajajpro.com/>

We are designers, manufacturers & exporters of Centering, Shuttering & Staging systems (Scaffolding & Formwork). We have design based turnkey solutions & services for various structures with CAD, 3D, site & safety assistance.

## About Us

Established in the year **1975**, we, "**Bajaj Products**," are renowned organization engaged in manufacturing and exporting a wide range of **Construction Support Equipment**. We are one of the largest manufacturers of this equipment in Northern India and also specialize in offering **Centering & Staging Systems** and some **Special Machinery Parts**.

We have developed a state-of-the art manufacturing units located in **Delhi & Haryana (India)**. These units are equipped with all requisite facilities, which enables us to manufacture our range in strict compliance with the defined industry standards. Being a professionally managed organization, we are backed by highly qualified engineers, CAs & MBAs, who hold rich industry experience in the respective domain. Owing to their expertise and in-depth industry knowledge, we also give **Consultancy** regarding the usage and functionality of the equipment. Also, we provide Computerized Erection drawings as per the application requirements of leading **Construction Companies** based at **Oman, Dubai, Bahrain, Emirates, Kuwait, Iraq, Saudi Arabia, Nepal, SriLanka, Philippines**.

We have successfully completed various prestigious consignments and projects, for renowned companies involved in the construction of **Dams, Large Industrial Establishments, Power Stations, Ports, Bridges and Flyovers**. Further, we are also capable to provide credits...
